

1. Frequent Delivery
 - a. At the end of each 3 week iteration.
2. Reflective Improvement
 - a. We meet up at least every Tuesday and Thursday to work together and work out bugs.
 - b. Meet with Dr. Gestwicki to go over his feedback and get his opinion on our progress.
3. Osmotic Communication
 - a. Work together in quiet areas to keep focus on each other and the project.
4. Personal Safety
 - a. Be able to text and talk with each other about problems we may have.
5. Focus
 - a. Create a task spreadsheet to keep people on track and let people know where we should be in the project
6. Easy access to expert professionals
 - a. Make appointments with Dr. Gestwicki to discuss progress.
7. Technical Environment with Automated Tests, Configuration Management & Frequent Integration
 - a. Configuration management: we use github to manage our changes
 - b. Frequent integration: When we finish features, we add them into our GUI so we can see how it affects the program.
